

The 2008 Humantech Find It – Fix It Challenge

The 2nd Annual Humantech Find It – Fix It Challenge is intended to recognize and reward the implementation of creative, sustainable, and high-impact solutions that address ergonomic issues in the workplace. **This contest is open to all Humantech clients, past or present, and will run from May 1, 2008 to September 12, 2008.**

This contest was derived from Humantech RAPID Team Events, which are based on the concept of making quick, simple, visible changes to improve ergonomic issues in the workplace. Using the vast number of improvements typically identified and implemented during these types of events, several companies have successfully raised ergonomics awareness within their facilities.

What is the process?

1. Download and complete the application form in the application package (Microsoft Word®) and entry template (PowerPoint®).
2. Submit the completed application form and entry template with original photos (.jpg format only) to finditfixit@humantech.com by **September 12, 2008**. Please refer to the rules and regulations in the application package for eligibility requirements.
3. Winners will be selected by a panel of Certified Professional Ergonomists and Humantech staff members.
4. Winning photos and submissions will be posted on the Humantech Web site after November 7, 2008.

E-mail your questions and/or comments to finditfixit@humantech.com.
